Bokashi

Bokashi is a fermentation compost system that can be used and stored inside the house. Sprinkle Compost-Zing on each time food waste is added and then rest for 7-10 days for the fermentation process before adding to a worm farm, compost, or digging into the ground.

1 Bucket and 1 Kg of Compost-Zing	1	\$51.00
	10 \$	405.00
Box of Compost-Zing 1 kg (20 packs)	1 \$	140.00

Worm Farms

Compost the food waste from the kitchenette or café onsite. Use the castings and liquid fertiliser in the gardens around the business site or encourage staff to take it home for their gardens.

Worm Farms with worms	1 \$	100.00
	10 \$	900.00
Worm Farms without worms (wholesale supply)	20 \$	1,500.00
Additional layers	1 \$	25.00
	20 \$	400.00

Green Come

1 \$	375.00
------	--------

Urba Plus Stackable Recycling Crates

Urba Plus helps you to segregate waste at source with a minimum footprint. Increased quantity combined with better quality recycle means less waste to landfill. Ideal for use in the home, office, shops, schools, hospitals and other public buildings.

Urba Plus Stackable Recycling Bins Available in Blue, Yellow and Green	1 \$	65.00
	10 \$	520.00

Desktop Bins

These 1.2 litre desktop bins are to enable staff to downsize their bins. As a solid plastic container that has no holes, there will be no leakages on their desk and the container can be easily washed. The national recycling symbols are used for easy recognition and consistent behaviours.

Food Scraps	1 \$	2.50
	10 \$	22.50
	100 \$	200.00

Waste to Landfill	1 \$	2.50
	10 \$	22.50
	100 \$	200.00

Box	12 \$	70.00

Dinner - 400mm x 400mm, folded into three (200 pack)

	1 \$	7.50
Box	12 \$	80.00

BioWare Cups

BioWare products' raw material, manufacturing as well as disposal have all been developed to have a lower impact on the environment. The BioWare range uses different compostable raw materials, mainly bio-coated paper board, biopolymers and molded fiber made from recycled paper and paperboard.

The cups are coated with a thin layer of PLA, which is made from a corn base. As the PLA coat is thin, it can be composted.

250 ml Hot Drink Biocup (100 pack)

	1 \$	24.00
	10 \$	220.00

300 ml Hot Drink Biocup (50 pack)

Loves Notes Stationery

LOVEnotes is heading towards... A globe where every notepad, notebook, or paper stationery product is manufactured locally, from 100% locally upcycled and recycled paper. ...And doing so through supporting local people and businesses, with completely ethical work values, and doing so while having so much fun! LOVEnotes are notepads with a conscience.

IntelliSwitch - It's the switch that thinks for itself so you'll never forget to turn off appliances or lights again. IntelliSwitch replaces your existing switches and power sockets so you can turn off different power consumers in your business without having to be there. Turn meeting room lights off automatically. Install an IntelliSwitch Single Switch to set the length length of time something should be on for, eg 15,30,60,90 and 180 minute periods, or 4 hours on 8 hours off. Gain control of your power bill. IntelliSwitch should be installed by a qualified electrician.

InterWaste - Lightbulb recycling

InterWaste is the only company in New Zealand offering a zero-to-landfill 100% recycling service for all forms of mercury lamps. Fluorescent lamps contain mercury, a highly toxic waste, which, if disposed of irresponsibly can pollute waterways and damage the environment. InterWaste provides an easy and effective service of fluorescent lamp disposal in order to ensure compliance with New Zealand regulation.

Compact Fluorescent Light - Domestic Box

Each CFL Recycling Box can hold up to 12 CFLs and comes with a pre-paid return shipping label. The re-sealable Vaporlock bag allows you to safely collect spent CFLs. When the box is full, seal it and return to your nearest NZ Post shop.

1	\$	12.95
